#### CALIFORNIA PROPOSITION 65 STATEMENT

All products shipped by SnugZ USA, Inc. into the State of California are subject to Proposition 65 ("Prop 65") or The Safe Drinking Water and Toxic Enforcement Act of 1986. "Prop 65" was created through the ballot initiative process and was intended to protect California citizens and the State's drinking water from a State determined list of over 750 chemicals that are "known" by the State to cause cancer, reproductive harm, or birth defects. This list and other information regarding Prop 65 can be accessed at <http://www.oehha.ca.gov/prop65>.

Prop 65 requires that a "clear and reasonable warning" be provided by a Person/Company in the course of doing business, who manufactures, produces, assembles, processes, handles, distributes, stores, sells, or otherwise transfers a consumer product which he or she knows to contain a chemical known to the state to cause cancer or reproductive toxicity to any person to whom the product is sold or transferred.

The lead state agency handling Proposition 65, the Office of Environmental Health Hazard Assessment (OEHA ; [www.oehha.ca.gov](http://www.oehha.ca.gov)), has established safe harbor levels which include No Significant Risk Levels (NSRLs) for cancer-causing chemicals and Maximum Allowable Dose Levels (MADLs) for chemicals causing reproductive toxicity for many of the 750+ chemicals listed under Proposition 65. Exposure levels and discharges to drinking water sources that are below the safe harbor levels are exempt from the requirements of Proposition 65.

SnugZ USA Inc. is fully committed to providing the highest quality, safest products for our clients and all our products meet applicable federal safety and warning requirements, standards and regulations as enforced by the Consumer Product Safety Commission, the U.S. Food and Drug Administration, and the Federal Communications Commission. While procedures have been established as part of our ongoing Product Safety initiatives throughout our supply chain to insure the purchase and use of raw materials that will meet Prop 65 standards, our efforts have to date been focused on the Third Party testing of our products to insure that they are in compliance with the very stringent regulations set forth by the CPSIA in regards to lead content in substrates and surface coatings of Children's Products and along with applicable Phthalate content. While lead content has been the focus of litigation in Proposition 65 cases, our current Proposition strategy has been to use our lead testing program to demonstrate that the products that we ship to California meet the Proposition 65 standards for lead.

On items that contain chemicals on the Prop 65 banned substance list you will see a label that will contain a statement such as this:

WARNING: This product can expose you to chemicals including \_\_\_\_\_, which is known to the State of California to cause cancer. For more information, go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).
